EDUCATION

University of California, Berkeley

Starting Fall 2026

B.A. Data Science — Expected Graduation: 2030

Ida B. Wells High School

Portland, OR | 2022–2026

GPA: 4.0 Unweighted • Class Rank: 1 of 341

RESEARCH

Apprenticeship in Science and Engineering

2024

Portland State University — Dr. Shravas Rao

- Conducted research on algorithmic complexity and quantum computing, focusing on the power of algorithms via query complexity.

EXPERIENCE

Camp Counselor

Summer 2026

Code Ninjas — Hillsboro, OR

- Lead and supervise groups of campers ages 7–14, teaching coding and STEM curriculum spanning Scratch, JavaScript, Roblox/Lua, and Minecraft modding.
- Guide students through hands-on projects, managing classroom flow and engagement across multiple skill levels simultaneously.
- Collaborate with fellow instructors and center staff to deliver a consistent, high-energy camp experience.

Computer Science Teaching Assistant

2025–Present

Ida B. Wells High School — Portland, OR

- Support instruction for a class of ~30 students; help design curriculum, assignments, and lesson plans.
- Work one-on-one with students to explain concepts and debug code, adapting explanations until each concept clicks.

Math Tutor

2025–Present

Multnomah County Library — Volunteer, Portland, OR

- Tutored 6 students across 8 weeks in math from 4th–12th grade, adjusting approach to each learner's age and level.
- Built an encouraging, low-pressure environment where students felt comfortable making mistakes and asking questions.

PROJECTS & LEADERSHIP

Chief Systems Programmer & Head Composer

2022–Present

Oregon Game Design Project — Fractal Development

- Co-founded and grew a student game development team from 3 to 7 members; lead all programming in Unity and C# and audio composition.
- Won 4 awards at Oregon's statewide competition (50+ teams): Best in Show, Player's Choice, Best in Game Design, Best in Programming.
- Placed top 4% out of ~10,000 entries in the GMTK Game Jam, one of the largest game jams in the world.

SKILLS

Languages: C#, Python, Java, JavaScript

Tools: Unity, Git, VS Code, Blender, FL Studio, DaVinci Resolve, Web Development

Other: Project management, curriculum development, technical communication, classroom management
